SPRING
and FALL

1949

South Michigan Nursery
New Buffalo, Michigan.

Purple Fringe Smoke Tree

(Rhus Cotinus)

Clouds of misty purple flowers make this shrub look like a "puff of smoke" when in bloom. Flowers are long lasting. Grows 6 to 8 feet tall. Trim to desired height. (Ours is the hardy variety that can be grown in the northern states.) **Price:** Strong plants, 18-24 in., each 75c. Less Discounts.

MOUNTAIN PINK, Phlox Subulata *Moss or Creeping Phlox*

One of the best loved and best known of the spring blooming family. These low spreading plants, with solid sheets of flowers that hide the mossy evergreen foliage through May and early June, have endeared them to everyone. They are about six inches high and make clumps from one to two feet across. All are sun lovers and are very drought resistant. The soil should be well drained and not too rich. Excellent for the rockery, front of the hardy border, and for covering terraces, dry hillsides and cemetery work. Plant 12 inches apart in masses, or drifts for pleasing effects. **Nice, well rooted plants, 3 for \$1.00; 6 for \$1.95; 10 for \$3.25. Less Discounts.**

MORRISON

LARGEST BLACK RASPBERRY GROWN
Many Berries as Large as a Quarter

Morrison is fast becoming the highest ranking commercial Black-cap. It's a rank grower, and produces immense, round, jet-black fruit of the highest quality, both for fresh, canning, freezing, or jams. You cannot beat it. Cumberland is good but Morrison is better. It will bear twice as much fruit as Cumberland will, because the bushes are twice as large. Morrison is about a week later to ripen than Cumberland. Berries will hang to the bushes a week after they are ripe. Easy to pick. Easy to grow. MORRISON is not too new as this is the sixth year we have been growing it. It's "Time Tested" by this time and is here to stay. Get started this year. Plant some, even if it's only a dozen in the garden. Twelve plants will produce enough fresh fruit for an average family. Plant Morrison for late crop. Plant 3 1/2 by 7 ft. apart. Plant in March, April and May. The earlier the better. FREE planting directions sent with the plants.

SODUS PURPLE RASPBERRY

This variety of Purple Raspberry is by far the largest and best of them all so far. Purple Raspberries are a cross between the reds and the blacks. The parents, DUNDEE and NEWBURGH, have long been discarded, but the offspring from these two varieties is a winner. The fruit is very large, firm, fine flavor (you can detect both flavors in SODUS), beautiful purple color, and ships well. As fresh fruit it's simply delicious. Freezes well, and makes the most beautiful jelly. The plants are vigorous, very productive, and hardy. It ripens shortly after Latham, and bears for about a month. It favors the black Raspberry in plant growth, and should be pruned like one. Why not try a dozen to start with. This will make a family size patch.

CUMBERLAND

The Business Black Cap

This is without question one of the most profitable and popular Black Raspberries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crops year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberland are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equaled by any other variety in quality, flavor or appearance, except Morrison. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease-free. Twice state-inspected plants.

Plant Cumberland for midseason. MORRISON for late, and MORTGAGE LIFTER for extra early, and you will have berries for a month long. Set plants 3 1/2 by 7 ft. apart. March, April and May are the planting months. The earlier the better. Require well drained ground. FREE planting directions sent with plants

LATHAM

Red Raspberry

Commercial Grower's First Choice

Latham is to Red Raspberries what Dunlap is to Strawberries. An old standby that grows anywhere on most any type of soil, and so hardy that it will stand 45 degrees below zero. Latham berries are large, often an inch in diameter. Best all-around berry to grow for a late red. Cans well, and fine for freezing. The plants grow large and tall. Holds the load of fruit well when trimmed back to 30 inches tall each spring. Plant Sunrise for real early, Latham for late, and Indian Summer or Washington for late everbearing, and you will have fruit all summer and fall. Set Latham plants 3½ ft. by 7 ft. apart. March, April and May are the best planting months. Plant soon as ground can be worked. 25 plants will plant a row 85 feet long, and plenty for average family.

THORNLESS!

**PLANT CANES ARE
SMOOTH AS A GRAPE VINE
BERRIES LARGE
AS LATHAM**

RED RASPBERRY

Canes are smooth as a Grape vine. Absolutely thornless. This new early wonderful thornless Red Raspberry comes into bearing while Strawberries are still on, when Red Raspberries are selling at their highest prices. It's a week ahead of any other variety. Lengthen your fresh fruit season by adding a few plants of this Thornless to your collection. Berries are borne in large clusters, many ripe at one time. Fruit not quite as large as Washington, but just as sweet and good. Small seeds, and will not crumble when picking like so many early varieties. Excellent either eaten fresh, canned or fresh frozen. Keeps its color well. Plants a year old stand up stocky and sturdy like a little tree. THORNLESS plants are a scarce item.

INDIAN SUMMER

BEST EVERBEARING RED

This new two-crop or everbearing Red Raspberry was introduced by the New York Experiment Station several years ago, and has been well tried out, and proven a success, both as a one-crop bearer, and also as an everbearer. The fall crop is borne on the new growth. The fall crop will start in September and continue till frost late in the fall. Berries are large, conical shape, firm, few seeds, and sweet. Fine shipping quality. The plant is a husky grower, perfectly hardy, and resistant to common diseases. Bears midseason to late fall. We offer both 1-year and 2-year-old plants in this variety. On November 7th, 1947, we picked our last Indian Summer berries.

PLANTING INSTRUCTIONS

Red Raspberries

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set five feet apart each way while under the second system they are set three feet apart in rows seven feet apart. Set plants just a trifle deeper than they were in the nursery in well worked soil, spreading out the roots and pressing soil firmly. After planting cut canes back to 2 or 3 inches above the ground level.

The following spring, before growth starts, prune canes back to a length of about three feet. After fruiting season cut out all fruiting canes and burn them to destroy any disease or insects, as the fruit is always borne on new growth canes and five or six of these new strongest canes are sufficient to leave to a hill.

Follow this same procedure each year. Cultivate Raspberries shallow during entire season but do not continue beyond picking season, as late growth will not mature sufficiently to withstand the winter.

It takes about 1800 plants to set an acre $3\frac{1}{2}$ ft. by 7 ft.

SUNRISE

SUNRISE will make a good fruiting row in less time than other varieties of reds. Grows shorter and more stocky. Holds up well under the load of fruit.

The **OUTSTANDING NEW RED RASPBERRY** originated by the U. S. Department of Agriculture has now been christened **SUNRISE**. It comes to fruit growers with many advantages over older sorts.

DR. DARROW and **PROFESSOR CLARK** described the new berry in the U. S. Department Circular 397. It originated as a cross between Latham and Ranere. Among other things they say: "Of most importance about **SUNRISE** from the standpoint of the practical grower perhaps are:

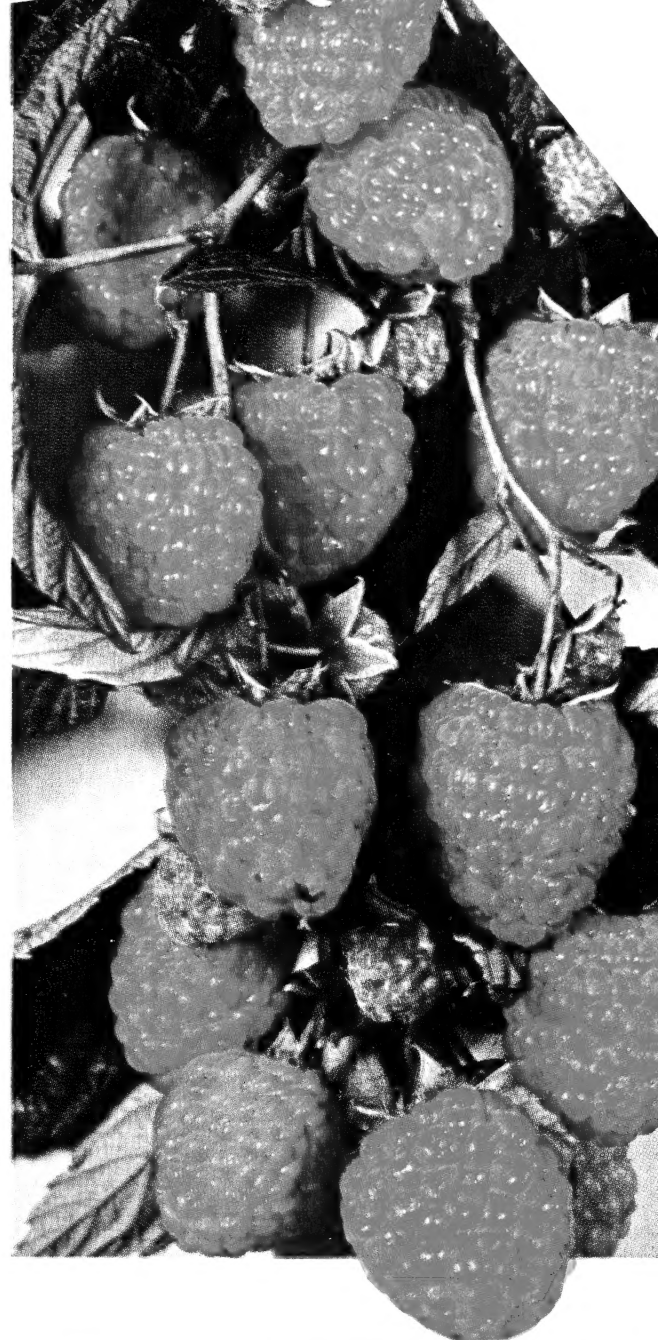

- 1—"HARDINESS and RESISTANCE to disease."
- 2—"EARLINESS and LARGER SIZE of the berry as compared with Ranere."
- 3—"BETTER TEXTURE and QUALITY of the fruit compared with Latham."

Extra early. Extra fine flavor. **SUNRISE** will grow and produce farther south than any other Red Raspberry known. Still it is perfectly hardy in all northern states, and some parts of Canada.

Mortgage Lifter

NEW EXTRA EARLY BLACK RASPBERRY

This is a brand new variety. However, it has been grown for a few years and well tested out by Mr. John Peterson of Harbert, Michigan. The original plant was found growing wild along a fence row in this county. It was discovered by O. K. White, a plant inspector, working out of the office of the State Department of Agriculture at that time. Mr. White dug the plant up, and gave it to Mr. Peterson to try out and grow. It took Mr. Peterson three years to get a good supply of plants, but now for the first time, we will introduce it to our customers. We will be the only nursery to have it for sale. The plants are grown by Mr. Peterson from the original stock and you will be sure to get true-to-name stock. We are offering them in 1-year and 2-year-olds. MORTGAGE LIFTER is jet-black, EXTRA early. Sweet as honey. Strong grower.

Not quite as large as Cumberland, but plenty large to make a very attractive box of fruit. It demands the highest price on the market as it is 10 days earlier than other varieties like Cumberland. You will be through picking MORTGAGE LIFTER by the time Cumberland comes on. Order early, as the stock of plants is still limited. When we are sold out of them, your money will be refunded, or rebooked for fall of 1949 if you wish.

GOLDEN QUEEN RASPBERRY

A beautiful, large, golden yellow Raspberry. Many prefer this fine variety to any of the reds or blacks, owing to its sugary sweetness and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers. Grows like a Red Raspberry and should be handled like one. Ripens with Latham. Our bearing age plants will bear fruit this year. Both size plants will bear full crops in July, 1950.

VALENTINE SWEET RHUBARB

Here's the latest and best in RED Rhubarb. It's the sweetest of them all. Makes beautiful, bright red sauce, and pies.

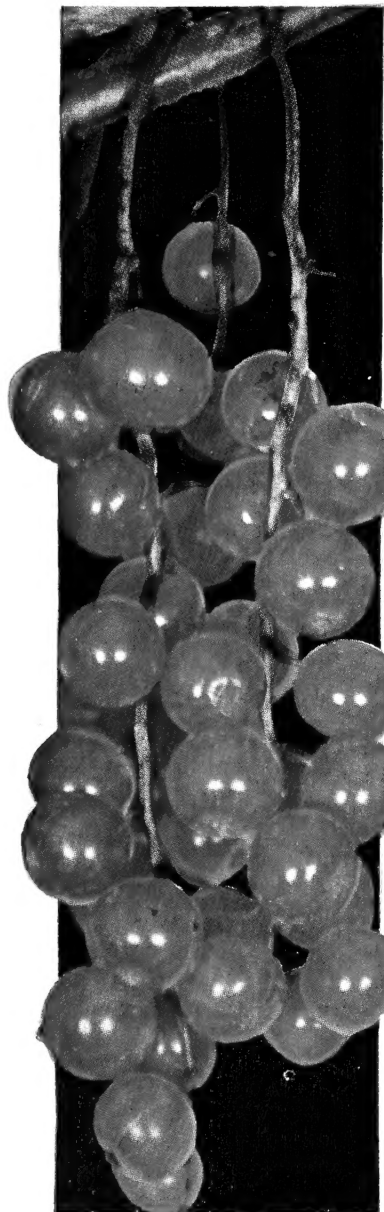

Comes on early in the spring, and can be pulled for months. Grows rank in good rich soil.

Introduced from Ontario Horticultural Experiment Station, Valentine has taken the lead among red Rhubarbs. The Dominion Experiment Station at Morden, Manitoba, tested 25 leading popular varieties, with six persons testing the cooked product identified only by numbers. Reporting on the test, the Morden Station says: "Valentine sauce was rated highest. Color was an even bright red; texture, smooth and tender. Flavor was pleasing with a slightly tart after taste. All testers accorded Valentine the highest standard."

VICTORIA RHUBARB

This giant stalked Rhubarb is the best that can be grown. It is tender, early, and has a mild acid flavor. Stalks are reddish green. Delicious for pies and sauce. We offer you nice size, 2-year-old roots that can be cut this year. Price: Each 25c; 3 for 65c; 12 for \$2.00; 25 for \$3.75; 100 for \$14.00. Less Discounts.

Canada Red

CANADA RED RHUBARB

A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as Strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it can not be grown from seed.

PRICES: 2-Yr. Divisions			
Each\$0.75	3 for\$2.00
		6 for\$3.75

HORSERADISH ROOTS

This is the good old Bohemian Horseradish. Will grow any place from high light sand to rich bottom land. Grates up fine and tender. White as snow and strong as Samson. Prices: Heavy roots, 3 for 35c; 10 for \$1.00. Heavy Crowns, 3 for \$1.00; 10 for \$3.00.

PEPPERMINT (Mentha Piperita)

True Peppermint. Leaves and stems may be used for flavoring. Plant in low place, where water stands, or overflow from your outdoor pump. Must be grown in wet place to do well. Price: 6 roots for 60c. Six roots will spread and make plenty for average family. Makes beautiful ground cover.

PIXWELL GOOSEBERRY

This new Gooseberry was originated at the North Dakota Experiment Station. It picks well, and that is why it was named **PIXWELL**. The berries hang on slender stems about 2 inches below the branches.

It is absolutely hardy, and a good vigorous grower, producing large bushes that are able to carry the load of fruit which is light green, and turning to a pink when fully ripe.

Foliage colors up in late summer, and makes a very beautiful ornamental bush, so it can be worked in a landscape job, serving as both ornamental and useful in bearing the Gooseberries to make that delicious pie.

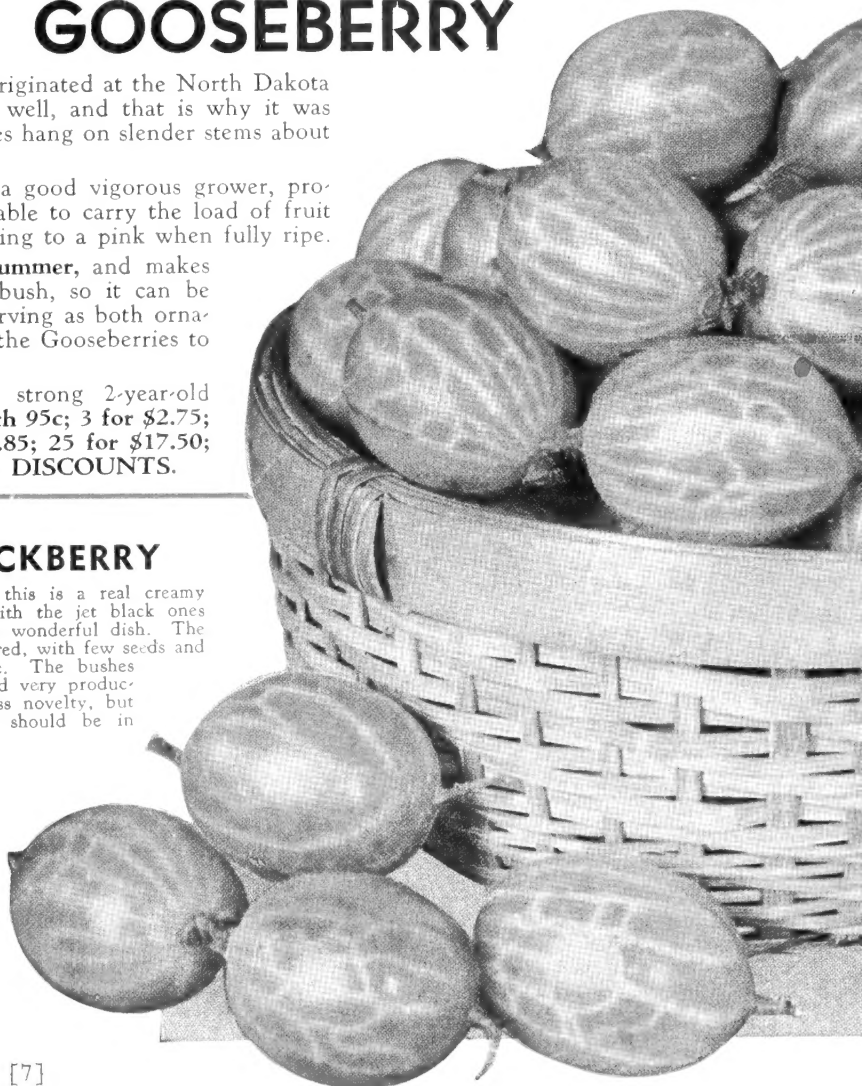

We offer this year strong 2-year-old bearing age plants. Each 95c; 3 for \$2.75; 6 for \$5.35; 12 for \$9.85; 25 for \$17.50; 50 for \$30.00. LESS DISCOUNTS.

WHITE BLACKBERRY

Strange as it may seem, this is a real creamy white Blackberry. Mixed with the jet black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Alfred, with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden.

A 5-Year-Old Jersey Blueberry Bush, Year After Setting

GIANT

CULTIVATED BLUEBERRIES

EASY TO GROW. Each year as we learn more and more about growing the HYBRID cultivated Blueberries, we find that they are not near as fussy about what kind of soil they will grow on, as we did a few years ago. Of course they prefer a rather moist acid soil, but we also find that they will grow on other soil too, by adding some peat moss, old leaves or sawdust with the soil. Sulphur and water them well during dry spells.

The Cultivated Blueberry is a rather DWARF growing plant. A plant 15 years old will not be over 6 ft. tall, but it will be the same size in circumference. They grow in a ball shape plant, and their roots are all very near the top of the soil, so they must be cultivated very shallow. Set the plants 5 ft. apart each way, and keep clean by frequent cultivation. Hoe all weeds away from the plants. We offer 2-yr., 3-yr., 4-yr. and 5-yr.-old plants. All of these sizes have some buds. You can expect 2 to 6 quarts of fruit from a 5-year-old plant the year after set.

year after set, when it becomes well established. Even the 3-year-old plants will bear some fruit the same year set.

We offer for sale JERSEY, RUBEL and RANCOCAS varieties. These are the three best ones. The RANCOCAS is early. Then comes RUBEL, and for late it's JERSEY. JERSEY bears the largest berries. All are excellent quality, and go well together on account of pollenization. You may order by name or leave it up to us to select the varieties for best pollenization. If you order only two plants we will ship you two varieties.

Dwarf Bartlett Pear Tree

DWARF BARTLETT PEAR

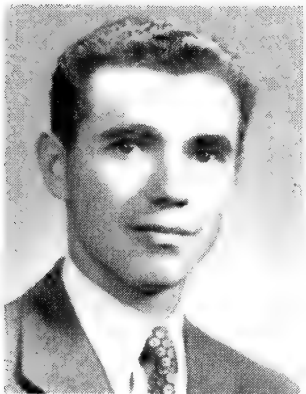

This is just the thing for small back yards or lawn planting. Trees never get large. Bears fruit second year, and of standard size. It's only the tree that's dwarf, and not the fruit. A Dwarf Bartlett not over 6 ft. tall can bear a half bushel of fruit. What a sight to look at, and the attraction that it will create will be worth the price you pay for the tree, many times over. These trees can be set 8 ft. apart, since they never will get large. A row of small plants like Raspberry or Strawberry can be planted between rows of dwarf fruit trees. We also list Dwarf Apple (page 23) and Dwarf Sapa Cherry (page 16). These Dwarf Bartlett Pear trees grow well and on most any kind of soil. We offer nice 2-year-old trees, well branched. **Each \$2.50; 3 for \$7.00; 5 for \$11.00; 10 for \$19.00. Less Discounts.**

How to Order

Fill out and mail your order as soon as you can after you receive this catalog. Remember, the earlier the better. On all early orders received before February 5th we are allowing a 20% cash discount on items in this catalog. Or you may take your discount in extra plants. 15% cash discount will be allowed on all orders received before March 5th, and 10% cash discount on orders received before April 5th.

TERMS and REMITTANCE. Send post office or express money orders, bank draft, or your personal check. Please do not send currency unless you register the letter. Our terms are full payment with order. However, on orders amounting to over \$10.00, we will accept one-third payment with order and you may send the balance before it is time to ship.

WHEN TO PLANT. March, April and May are the planting months. Be sure to state when you want shipment made. If in doubt, let us ship at the proper planting time for your locality.

REFERENCES

The Bank of Three Oaks;
Citizens Bank, Michigan City,
Indiana; American Railway Ex-
press agent, Postmaster or Dun
& Bradstreet.

Complete growing instruc-
tions will be sent with each
order.

Look for them in the pack-
age, and save for future use.

GUARANTEE

We guarantee all of our nursery stock to be just as represented in our cat-
alog; fully up to grade, of good quality, free from disease, and absolutely true
to name; also to reach the customer alive, and in perfect growing condition.
Furthermore, we will, at our option, either replace free of charge, or refund
purchase price on any stock that arrives in bad condition; providing claim is
made within 5 days from arrival of shipment, accompanied by a signed state-
ment from the Express Agent or Postmaster at destination, showing extent of
loss or damage. If any stock proves untrue to name, it will, at our option,
either be replaced free of charge, or purchase price will be refunded; but in
no case will we be responsible for a sum greater than the original purchase
price paid. Beyond this our liability ceases. It is understood and agreed
between the customer and ourselves that the purchaser's order, and our
acknowledgement of its receipt, shall constitute a mutual acceptance of the
above terms and conditions.

HOW TO SHIP. We ship everything either by
express or parcel post. We will not make freight
shipments, as this service is too slow. Parcel post is
best for small orders. Again, if in doubt, let us
decide which will be the cheapest and best for you.

DISCOUNTS. It will pay you to mail your
order early, as this year we are allowing 20% cash
discount for orders received before February 5th,
15% before March 5th, 10% before April 5th. If
you prefer extra plants for this discount, please state
on the order sheet.

STREAMLINER

The New Everbearer **ENORMOUS SIZE
BUT NEVER HOLLOW**

Brings Sensational Results

Berries sell for 45c a pint in stores and roadside markets, all summer and fall.

We are always on the outlook for a better Strawberry, especially an everbearing variety. There are many very good varieties like Mastodon, Gem, Wayzata, and Minn. 1166 (now named EVERMORE). They are all mighty good in every way. HOWEVER, we have never seen a more beautiful Strawberry than the STREAMLINER. It's almost round, with a small hull, and of enormous size. Even larger than the famous Mastodon. The STREAMLINER will ripen up even, to the prettiest bright scarlet color, which will attract customers' attention every time. Sweet as honey, with very little acid.

BEARS 60 DAYS AFTER SET

Set STREAMLINER plants during March, April or May, and you will be picking those big, sweet juicy beauties 60 days later.

Think of it—no waiting a whole year for berries. When late killing frosts come in October or November the plants will still be loaded with green and ripe berries, and even blossoms. It will take a good hard frost to stop them.

BEARS 3 CROPS IN 18 MONTHS

Then the following June, you will again harvest a full crop, just like an ordinary Strawberry, and with good care they will keep on bearing till late into the fall.

STRONG, HARDY GROWER

STREAMLINER is a thrifty, strong, and hardy grower. Does well on most any soil, and seems to do well in both wet and dry season. Perfect flowering, and needs no other variety to pollinize it. You will just have to try this variety to know how wonderful STREAMLINER really is. STREAMLINER is not going to take the place of MINN. 1166 (Evermore), but will be tough competition.

New ROBINSON

**Largest June Bearing
Strawberry Known**

LARGEST QUALITY. These big round blunt-pointed berries are of top quality. They are borne on large thick fruit stems, that are protected with a heavy foliage that makes up a wide fruiting and picking row.

The tangy rich sweet flavor is found in no other Strawberry. Just imagine yourself ready to start working on a dish full of these berries. Solid red all the way through and full of rich red juice.

MASTODON

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Streamliner—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Streamliner, and makes many new runner plants. These new runner plants will also bear toward fall, and then you have a real picking row. This wide row will make fine picking next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop Mastodon from bearing. White frost will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

SCARLET GEM Bears 60 Days After Planting

Differs a little from Wayzata and Mastodon in this way: Gem prefers a clay or a heavy sandy loam soil, where Wayzata and Mastodon do well on any kind of soil. Gem also does best when grown in the hill system, so for best results keep all runners nipped off. The berries are large and smooth, and of a light red color, that ripen up even all around. Bears equally as heavy as Mastodon, and the berries get larger towards fall. Runner plants will bear as well as the mother plant. Gem is a good plant maker. Makes a good June-bearing variety. Bears 3 crops in 18 months. Gem makes a beautiful quart of berries. Berries like these sell for \$1.00 a quart around Thanksgiving and bring good prices all summer long.

SUPERFECTION

Everbearing Strawberry

The newest variety out. Bears 60 days after set. Three big crops in eighteen months. Looks and grows a little like Scarlet Gem, but bears much heavier, and grows more thrifty. Holds color and flavor well after picked. Excellent eaten fresh, canned or frozen. Set the plants in April and May, and be eating delicious berries in July the same year. Plants are still scarce. Order early.

SENATOR DUNLAP

Senator Dunlap is an old well known variety that has made more dollars for berry growers than any other variety. It will grow most anywhere and on any kind of soil. However, it will do best on heavy, rich soil. If planted on light soil, be sure to set them 2 feet apart. On heavy soils set them 18 inches apart. Berries are dark red, firm, and sweet. Wonderful for canning and freezing as well as fresh.

Minnesota 1166

Now Called "EVERMORE"

**At Last! An Everbearing Strawberry That Has Everything—Starts Bearing 60 Days After Set and Continues Bearing Till Heavy Frosts—
3 CROPS IN 18 MONTHS!**

Minnesota 1166 is a large, long-pointed berry, produced on long-branched fruit stems, well hidden under the leaves for good protection. The color of the fruit is on the dark red order, and a solid red clear through the berry, even when the berry is still not quite ripe.

Minnesota 1166 is just as productive as any everbearing Strawberry we have grown, and makes a good quantity of plants. For best results in fruit production, we recommend that the runners be pinched off as fast as they appear in the summer. It's a strong grower, resembling the Missionary variety. The fruit is attached to a fine green hull that will not pull out even when the berries are dead ripe. This, with the small amount of juice this variety contains, will make it the very best jam berry ever introduced. This variety has been known to keep 5 days without refrigeration, and never mold or spoil in the hottest weather. It will dry up like a raisin before it will spoil. This will make it the coming commercial variety, as most other everbearing varieties will not keep long after picking.

Minnesota 1166 berries shipped to the South Water Street market in Chicago this summer sold for \$7.50 per 24-pint crate. Once you have tasted Minnesota 1166 berries you will eat no other kind. We know, for we grow all the varieties and at our table we choose the Minnesota 1166 every time. We have 150,000 of them to offer and we are sure this will not go half way around, so send in your orders early, and take advantage of the discount we offer for early orders.

NOTICE—FREE

To encourage early orders, we are going to let you select 10% discount in FREE plants over and above the 20% CASH discount that we are offering for all orders received before Feb. 5th, 1949. Here is how it works: Suppose what you order adds up to \$18.60. Your CASH discount is \$3.72. Deduct this from \$18.60 and you make out your check or money order for \$14.88. NOW 10% of \$14.88 is \$1.49, so look through the catalog and see what \$1.49 will buy. Should you want an item that lists for \$2.00, then just add 51c. (NO DISCOUNT ON FREE PLANTS.) If you receive this catalog after Feb. 5th, we will allow a few days for you to take advantage of this offer.

PREMIER

The Most Famous Berry Ever Introduced

Premier Strawberries sold as high as \$11.50 per 16-quart crate on the Benton Harbor, Mich., Wholesale Fruit Market.

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

58 DAY HARDY YELLOW HYBRID SWEET CORN

Earliest Hybrid Sweet Corn

This is the earliest and sweetest of all Sweet Corn. Ears 7 to 9 inches long. Stalk grows to medium height and several ears on 1 stalk, when planted in good garden soil. Big moneymaker. Be the first one to offer Sweet Corn for sale this year. First Corn brings 50c per doz. **Price:** 1/2 lb., 50c; 1 lb., 75c; 5 lbs., \$3.50, postpaid. **Less Discounts.** 10 lbs. for \$6.00; 20 lbs., \$11.50, not postpaid. **Less Discounts.**

MARY WASHINGTON ASPARAGUS

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earliest, the stalks are larger, more tender, more productive than any other variety.

DELAWARE

The Sweetest Grape of All

Very rich fine flavor. Juicy and tender. Color is a clear pink, becoming nearly red when fully ripe. It's the favorite eating Grape, and being fully as good for jelly, juice or wine. Delaware is the midget of the Grapes. Vines grow standard size. Very hardy and live for years. **Prices:** 2-year-old No. 1 vines, each 35c; \$1.75 for 5; 10 for \$3.25; \$6.75 for 25; 100 for \$22.50. **Less Discounts.**

NECTARINE

Lovely pink flowers in spring, on small, ornamental trees. Loads of deliciously sweet fruit in late summer! Smooth skin like Plums. Mellow, rich, juicy, flesh like Peaches. Very fragrant and attractive. A treat for the family, whether served fresh or canned. Hardy as Peach trees, and self pollinating. **Prices:** 9/16 in., 4-5 ft., 2-year-old trees, each \$2.00. Super size trees, each \$3.00. **Less Discounts.**

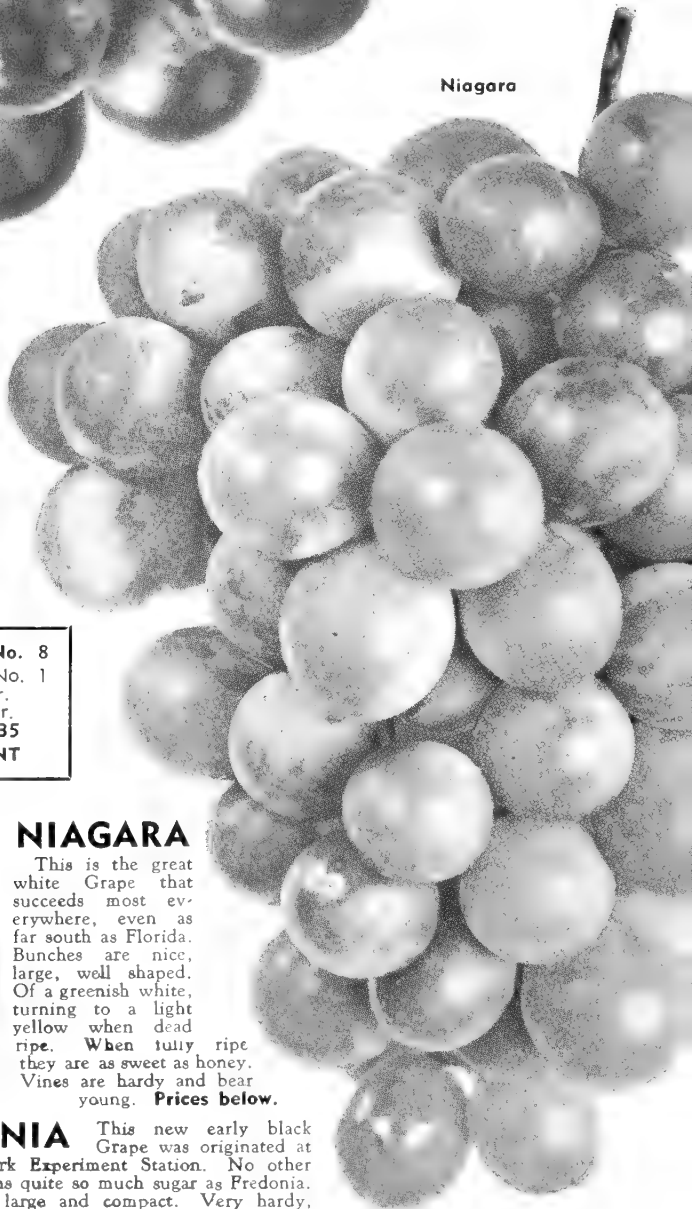

Niagara

Caco

CACO

This is the new quick-growing, young-bearing, delicious, sweet, big red Grape that is so popular. It has no equal as a home-use table Grape. It has a peculiar characteristic found in no other Grape, in that it is rich in flavor. Its deep, wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight. Ripening in September as they do, the crop will be harvested long before killing frosts. **Prices below.**

NIAGARA

This is the great white Grape that succeeds most everywhere, even as far south as Florida. Bunches are nice, large, well shaped. Of a greenish white, turning to a light yellow when dead ripe. When fully ripe they are as sweet as honey. Vines are hardy and bear young. **Prices below.**

FREDONIA

This new early black Grape was originated at the New York Experiment Station. No other Grape contains quite so much sugar as Fredonia. Bunches are large and compact. Very hardy, vigorous grower. Bears second year. Ripens 15 days ahead of Concord, and tops the market on account of its high quality. A few cents spent now for some Fredonia plants will be a lifetime investment, for which you will never be sorry. **Prices below.**

GOLDEN MUSCAT

This new hardy California yellow Grape can now be grown anywhere, because it's hardy enough. The berries are large, and form a big, compact bunch that is very attractive. Quality is of the best, fruit being meaty with the Muscat aroma. Be sure to have at least 1 plant of this new variety in your garden or back yard, and be convinced. **Prices: 2-year-old, strong plants, each \$1.50; 3 for \$4.00. Less Discounts.**

CONCORD

Concord is beyond a doubt the most popular blue Grape. More Concord are planted than all other varieties. It is the commercial table and wine variety. Concord is perfectly hardy, having stood 30 degrees below zero without injury. Does well on any soil, but makes the sweetest fruit on light sand that has been well fertilized. Bunches are large, compact and well shaped. Sweet and juicy. Vines grow fast, and bear second year. **Prices below.**

COLORADO BLUE SPRUCE

We are offering baby Colorado Blue Spruce since they can be shipped without B&B, and arrive in perfect growing condition. See picture above. No description is necessary. Will grow anywhere. **10-12 inch tall trees, each \$2.00. No Discount.**

RARE DAHLIAS

Old Fred is gone, but his prize winning collections of rare and unusual Dahlias will live on, for we have bought this collection from his widow. The sad thing about it is, that none of them were labelled, so that we could keep them separate, so this year we will have to offer them as mixed, sort of "grab bag" fashion. However, this should be very interesting. This collection contains giant white, giant yellow, and two-tones, also many of the newest reds, lavenders, whites, Cactus, Pompons, and Miniatures. This is truly a great collection, and we are going to offer some of these at the following prices. Supply is naturally limited, so hurry your order in. **Each 75c; \$2.00 for 3; 6 for \$3.60; \$6.00 for 12. LIMIT. Less Discounts.**

Irish Juniper

IRISH JUNIPER

Of decided columnar form and immediately attracts attention. For formal work, especially in contrast with other plants, it has decided advantage over anything you can use for such work. Slender in habit; needs no shearing.

Price: 18 to 24 in. tall, each \$2.75; 2 for \$5.00. 2 to 3 ft. tall, each \$4.00; 2 for \$7.50. No Discounts.

PFITZER'S JUNIPER

This is one of the most popular Junipers. Spreading type, very hardy. Grows anywhere, even in shade. Wet or dry. Silvery green foliage. **18- to 24-inch spread,**

Price: Each \$3.00; 2 for \$5.50. No Discounts. 2 to 3 ft., each \$4.50.

DWARF MUGHO PINE

We offer the dwarf Mugho Pine, which are so much better than the Montana Mugho. These are compact, and are often called Pincushion evergreen. Dark green foliage, with beautiful silvery pink new growth in the spring. **20 x 20 spread. Each \$3.00; 2 for \$5.50. No Discount.**

UPRIGHT GROWING YEW (Hicksi)

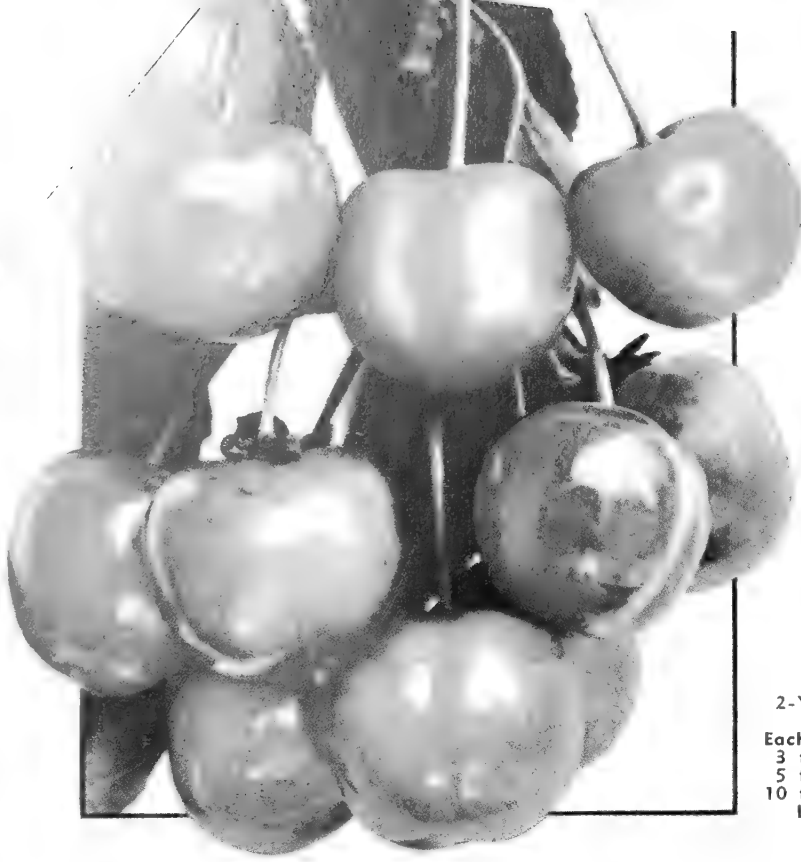

Will thrive in full shade or full sun. Grows upright, shrub-like. Not too narrow. Fine for corner plantings, or between windows. Can be pruned to most any shape, or will stand cutting back if it should become too large for the place it is in. Its dark green foliage, with its lighter new growth, makes it about the prettiest of all evergreens. Very hardy and tough. Does well in sand or hard ground, wet or dry. Lasts many years, and never seems to need replacing. **18 to 24 in., each \$3.00; 2 for \$5.50. No Discounts.**

NO DISCOUNT ON EVERGREENS

Mugho Pine

DWARF SAPA PLUM CHERRY

This dwarf hybrid Cherry Plum comes from Minnesota, and is so hardy that it can be grown, and will produce anywhere. It will also bear where it gets too cold to grow the regular Cherries. Fruits medium size. Smaller than regular Plums, and much larger than regular Cherries. Color is deep purple clear through to the freestone pit. It's sweet as honey when fully ripe. Great for canning, jams and freezing. Trees bear at 3 years old. Being a dwarf tree, they can be set 8 ft. apart. Blooms a beautiful white early in spring.

Russian Mulberry

This is a fine tree both for shade, and also a fruit tree. It will pay you to have one or two of these Mulberries growing on your place to feed the birds. The birds prefer them to your Cherries, so this is the very best way to solve your Robin trouble in Cherry time. It really works. Also fine for both hedge and screen or windbreak. Price: Nice size well-branched trees, 4 to 5 ft., each \$1.25; 2 for \$2.00; 5 for \$4.50; 10 for \$7.50; 25 for \$15.00. Less Discounts. Write for prices on larger lots.

HANSEN BUSH CHERRY

The New Quick-Bearing Cherry. EASY TO GROW—SURE TO PRODUCE—Highly Productive—Good Flavor—Hardy Everywhere

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape, rarely getting over 4 or 5 feet tall. Also of striking ornamental value.

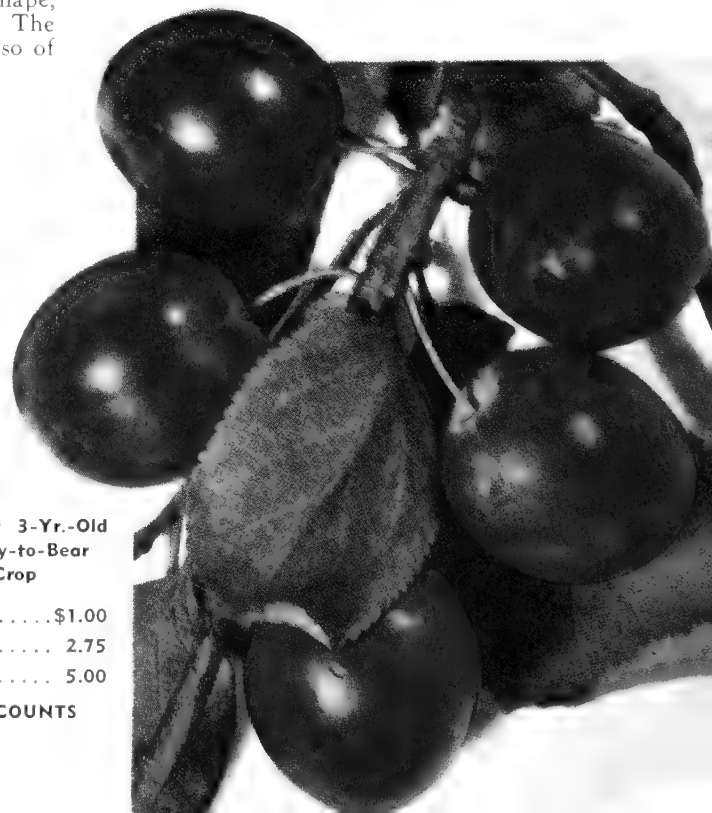

Plant Hansen Bush Cherries Because:

- 1 — They are so easy to grow and are perfectly hardy everywhere.
- 2 — Are good to eat fresh, and make delicious preserves.
- 3 — Bear from the ground up, early, heavily, and annually.
- 4 — Are dwarf growing, bushy, and take up little room.
- 5 — Excellent for hedges, ornamental shrubs and erosion control.

WINDSOR Black Sweet Cherry

This is that extra large blackish red Sweet Cherry that you see in the fancy fruit stores, that sells anywhere from 35c to 60c per pound. Brittle and sweet. Small pit. Dark wine-red all the way through the meat. Remarkable keeping qualities, and a wonderful producer. Ripens about the time most of the smaller varieties are off the market. Brings the highest price on any market on account of its size and attractive appearance. Sells like hot cakes at all roadside stands. Trees are vigorous, and will grow anywhere on any kind of soil as long as it's well-drained. Do not plant them where it is a little wet. Unless you already have a Cherry tree growing, we would advise you to plant at least two trees. These need not be of the same variety. Trees are hardy anywhere the temperature stays above 40 degrees below zero.

MONTMORENCY

PIE CHERRY

The finest and most reliable pie Cherry ever introduced. Big, round, juicy, bright red fruits will be yours to eat fresh or canned every July if you will set our "Certified Bud Selected" trees this spring. Often bears the year after set. Deliciously sub-acid. Good to eat fresh, or canned, frozen, or in pies. Also the one to use for Cherry juice. This variety will grow most any place in the United States, except the deep South. Not fussy about the soil. Montmorency is so dependable, and always sells. Folks will come and pick themselves, if you find yourself short of help in harvest time. You will receive trees that have been budded from Michigan State Certified parent stock. Our supply of these extra fine quality Cherry trees is limited, so order yours early.

Hale-Haven

HALE-HAVEN

This variety is a week later than Redhaven. In popularity and profit producing, it is second only to the famous Elberta. In a few years there will be more Hale-Haven planted than any other variety. Our fancy, well-bred Hale-Haven trees will bear young and annually. Fruit is freestone, and deep orange-yellow with deep red color many days before they are fit to pick. When fully tree-ripened they are a sight to look at. Firm, yet tender, sweet and juicy. Ship well and will keep a week in the refrigerator, even when fully ripe. We do not hesitate to say that Hale-Haven is the best canning and freezing variety of them all. **Prices next page to right.**

Giant Size Peach Trees

These trees are twice as large as our Super Size trees, and are ready to bear. Well branched, and a wonderful root system. These are trees that we did not get dug last fall on account of the weather, so we left them in the nursery to grow another year larger. We can offer these Giant size trees only in HALE-HAVEN, ELBERTA and ROCHESTER. Of course the supply of these trees will be limited, so order yours early. **Price: Each \$3.00; 3 for \$8.75; 10 for \$25.00. Less Discounts.**

WHY WAIT?

GIANT SIZE PEACH TREE
YEAR AFTER PLANTING

O'Boy!

THE
PERFECT
PEACH

The largest, richest flavored, most beautiful Peach ever grown. O'Boy Peaches are beautifully round and uniform. The skin is glowing orange, blushed all over with rich carmine-red. Flesh is reddish from the small pit to the outside. Freestone. Firm flesh makes it an excellent shipper and canner. O'BOY bears young and every year. Truly a fancy Peach. O'BOY would like a mate like Redhaven planted near it for pollenization. We obtained permission to sell this variety from Emlongs, the originators of this wonderful variety.

O'BOY PEACH PRICES

9/16 in. Caliper, 3 1/2-4 1/2 ft. Tall	Super Size, 11/16 in. Caliper

REDHAVEN

This is one of the finest quality of all Peaches. Almost solid red all over when fully ripe. Perfectly freestone, and the flesh is firm and meaty. Not soft and mushy like so many of the early Peaches. REDHAVEN is early, and a little smaller than Hale-Haven, but we feel this is due to the fact that this variety bears so heavily. We have thinned the fruit when two months from ripe, and have found that by doing this, they will become a very large Peach. So it would be well to thin them a little when they are on the branches thicker than 6 inches apart. Redhaven is self pollenizing, although it is always better to give it a mate of some other variety. Redhaven would be a good pollinizer for the Elberta, as Elberta is a little shy on bearing when set all alone.

ROCHESTER

Space does not allow us to illustrate Rochester. It's a yellow freestone early Peach. The best early one. Cans and freezes well. Flavor is excellent. Hardy and bears when others fail. It's an old variety, but one of the best. **Prices are to right.**

ELBERTA

The old famous variety needs no lengthy description. Fruit is very large, rather oblong in shape. Freestone, firm, and one of the best shippers. Trees grow larger than other varieties. Ripens a week later than Hale-Haven. Fruit deep yellow, with red blush; keeps well. Deep red around the freestone pit, with balance of the flesh a fine golden yellow. Elberta is the very best commercial Peach.

J. H. HALE

This variety is the giant of all Peaches. Large, round, thick flesh, with very small pit. Freestone. Richly flavored. Fine texture. Always sells for the highest price. Ripens a little later than Elberta.

GOLDEN JUBILEE

This is a newer Peach that ripens a few days after Rochester. Large size, shaped like an ELBERTA. A little better quality Peach than Elberta. Freestone and a fine canner and excellent for freezing. It's a heavy producer. You will like GOLDEN JUBILEE. **Prices are to right.**

Don't overlook **GIANT ALBRU PEACH**—Page 22.

The New FAIRHAVEN PEACH

In a continuous effort to develop better Peach varieties that will ripen earlier than Elberta, the Michigan Agriculture Experiment Station at South Haven have introduced the FAIRHAVEN.

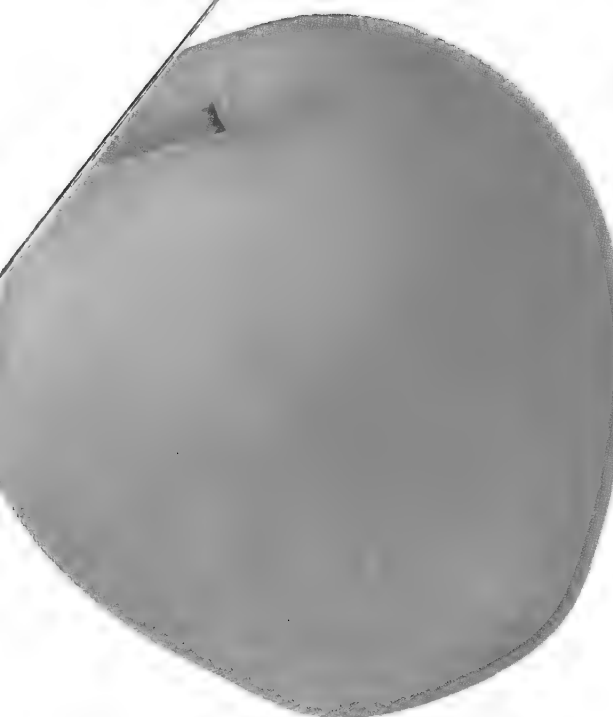

It's a cross between the South Haven and J. H. Hale varieties. It ripens at the end of REDHAVEN season, and a week before HALE-HAVEN. Half of the GOLDEN JUBILEE crop will be harvested when the FAIRHAVEN begins.

Fruit is large, beautiful color. Yellow. FREESTONE.

Trees grow strong and large. As hardy as Hale-Haven, and produces large annual crops. At South Haven the spring of 1943 and 1945 were extremely cold and foggy during blossoming season, yet FAIRHAVEN came through with full crops, when trees of many other varieties were unproductive. It's truly a great Peach. Order early. Supply this year is very short. 2-yr., 9/16 in. trees, each \$2.50. 2-yr., Super Size, 11/16 in. trees, each \$3.00. No Discounts.

Fairhaven

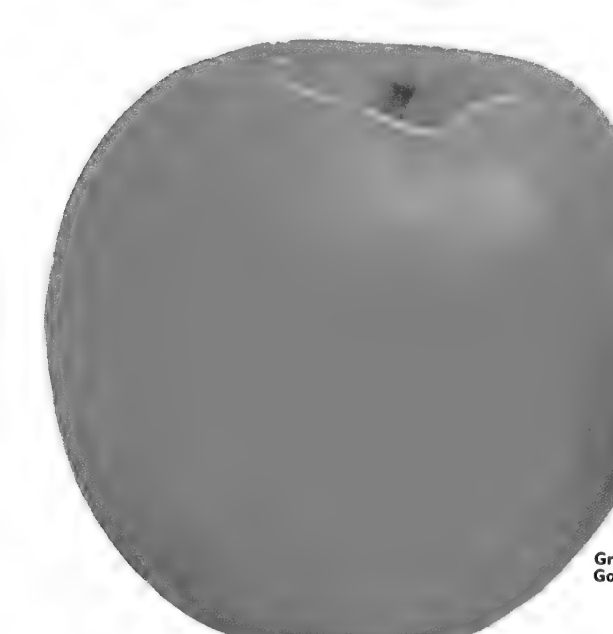

Yellow Delicious

Anoka

Grimes Golden

Stromer's

YELLOW DELICIOUS

Winter. Comes into bearing early, producing heavy crops. Very thrifty, hardy, vigorous grower. A golden Apple which has won fame as an outstanding commercial variety. 2- and 3-year-old sizes available.

CORTLAND Solid Red

A big, round, shapely FALL APPLE, which has won fame for its QUICK BEARING and HEAVY YIELDING habit. Hardy everywhere, and an excellent pollenizer. Flesh is white, tender, sub-acid, good to eat fresh or cooked. Excellent pie variety. Mostly dark red when ripe, overspread with attractive purplish bloom. Prices next page.

DOLGO CRAB

The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young. Prices next page.

NO DISCOUNT

ANOKA

No waiting for fruit if you plant Anoka. Hardy in all climates. The best early summer Apple of red color. Wonderful as a cooking Apple as well as a tasty eating Apple. Mellow and juicy. Not tart. The trees of the Anoka variety are somewhat dwarfed on account of their early bearing qualities. We offer you strong, healthy trees in both 2-year-old and in SUPER size. Order yours early, as each year we sell out of ANOKA long before the season is over. 2- and 3-year sizes available. Prices next page.

GRIMES GOLDEN

A winter Apple that is in great demand for drying, baking, pie-making, etc. Waxy yellow skin and very firm, hard flesh. Excellent flavor. Wonderful shipper, as it does not bruise easily. Hardy and prolific. Prices next page.

Mammoth Solid Red Cortland

Old Time APPLE VARIETIES

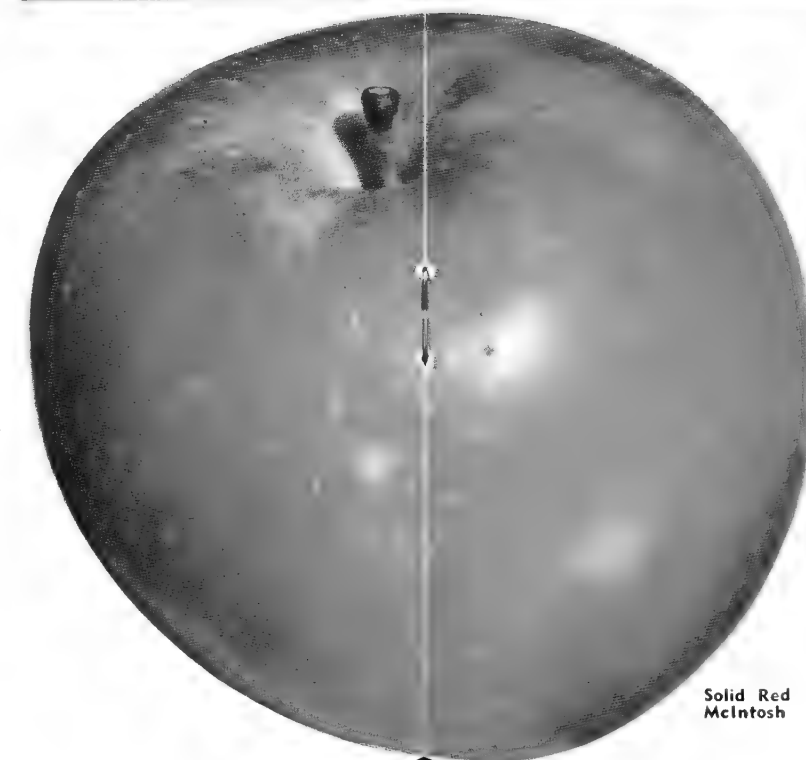

We still have calls for these old time Apples so have decided to list these 8 varieties. These are the best, and are some mighty fine kinds.

--	-------------	---	-------------

SUPPLY IS LIMITED—ORDER EARLY

Solid Red McIntosh

Apples

YELLOW TRANSPARENT

The finest extra early yellow Apple. It ripens in July and the season continues to September. Fruit medium size, and can be used for pies and sauce before entirely ripe. Flesh white, mild, juicy, and sweet. Trees grow upright, and can be planted at much less distance than most other varieties. Bears young and regularly. 2- and 3-year sizes available. Prices below.

DOUBLE RED DELICIOUS

This variety is far superior to the common red Delicious, as it is highly colored all around, with no green sides. Double Red Delicious is America's number one Apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful Apple, and the best eating Apple of them all. Flesh slightly yellow, with semi-sweet flavor. 2- and 3-year-old sizes available. Prices below.

NORTHERN SPY

It's hard to beat the Northern Spy Apple for eating, cooking or any way you want to use it. Fine grain flesh, juicy, and mellow. Has a flavor that is found in no other variety. Tree grows upright, and makes an excellent shade tree as well as a fruit tree. Why not plant one in the yard, and sit in the "Shade of the Old Apple Tree?" 2-year and 3-year size trees available. Prices above.

McINTOSH Solid Red

McIntosh is a late fall Apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned Snow Apple. It's an eating Apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available. Prices above.

Northern Spy

The Great **JONATHAN**

This is No. 2 Apple on the market. That is, Red Delicious brings the highest prices and sells the best, and Jonathan comes next. This variety cannot be praised too highly. It's solid red, good sized, firm, juicy, and keeps well. Its flesh is white and brittle with that tart tangy flavor that's in a class all of its own. Cast your eye on that Jonathan Apple above. That's just the way they look when fully ripe. If I had room for only one Apple tree, I would surely plant a Jonathan. Start to bear fourth year after set, and bear every year. We have a 40-acre Apple orchard in bearing. 30 acres of it are Jonathan. 2- and 3-year sizes available.

GIANT ALBRU

PEACH

This great Peach was originated down in Clyde, Ohio, and is beyond doubt the prettiest Peach I have ever seen. It's very large and most highly colored, red and yellow. It's a Hale type Peach in every way, even to the size, and firm flesh. It's more highly colored than J. H. Hale, and will bear without pollenization. It's freestone, yellow flesh, and tiny pit. It's all meat.

The Albru Peach trees grow thrifty, and bear young. Make a large tree in a few years, that are capable of bearing heavy crops.

ALBRU ripens with Elberta to a little later, depending on the ground. A very good shipper, and an excellent canner. Try a few trees. Limit, 25 trees to a customer.

DWARF

Old Folks Should Plant Dwarf Trees

Our Dwarf Apples are just the thing for the small back yard or on small places where a standard Apple would take up too much room. Trees often bear first and second year after set, and although they never grow to be over 8 feet, they bear standard size Apples. It's only the trees that

APPLES

are dwarf. Supply of these trees is still limited. Order early and please give second choice. We have only 4 varieties of the Full Dwarf Apples to sell: Yellow Transparent, McIntosh, Yellow Delicious and Red Delicious. Price: 2-year-old, 9/16 in. trees, each \$3.75; 2 for \$7.00; 5 for \$14.00; 10 for \$20.00. No Discount.

SEMI-DWARF APPLES

These Apples are budded on Seiboldi root, which causes the tree to grow in a semi-dwarf fashion. This is just the ideal thing, where a person wants to plant more trees on a plot of ground than you could do with standard Apple trees. These are not a full dwarf, so you should set them about 16 feet apart. We offer Solid Red Rome Beauty and Solid Red Delicious. Bears young.

Semi-Dwarf SOLID RED ROME BEAUTY

This is one of the most beautiful of all Apples. Extra large, well shaped, red all over. Firm texture. Marvelous for eating, baking or cooking. Very fine pie Apple, too. Keeps well into the winter.

Semi-Dwarf SOLID RED DELICIOUS

Every one knows the Red Delicious Apple by this time. Grown from coast to coast, and is considered number one Apple wherever you go. Finest eating Apple. Keeps well.

VEST POCKET APPLE TREES

Six Varieties All On One Tree

This is not just a worthless novelty. It is really true. We have budded 5 different varieties of Apples all on a Whitney Crab Apple stock. This makes 6 varieties all on this one sturdy tough understock. You will get Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy, Yellow Transparent, and the Whitney Crab on which all these varieties are budded. Yellow Transparent will be the first to ripen, then the Wealthy, and so on up to the late winter keeping varieties. Why buy 6 trees when you have only room for one? Think how interesting it will be to watch this tree develop. Plant one by your kitchen door, take good care of it, and you will be well repaid with sweet Apple blossoms early in the spring, shade all summer, and fruit all summer and fall.

We are offering only the super size trees, 3 years old. **Each \$3.50. Less Discounts.**

LAWN GRASS

We have never before handled Lawn Grass Seed, but we have so much call for it that we have decided to handle it this year. We offer only one grade, and that is the very finest, called **Condon's Supreme Velvet Green**. This special mixture is made up by blending in proper proportions **Fancy Kentucky Blue Grass, Fancy Solid Red Top, Fescue, White Dutch Clover and Rye Grass**. All of these produce the very finest texture of grasses, each growing seed making an individual blade, and collectively a solid close turf like a rich velvet carpet. No Timothy in this mixture, since Timothy will stool and make bunches in your lawn. Timothy is fine for hay fields, but not lawns. A blend made up of mostly Timothy can be sold much cheaper, but if a good long lasting lawn is wanted, you must buy the best. Naturally this best grade is higher in price too, but since the average lawn takes only about 5 pounds, a dollar or so more is soon forgotten. Michigan grade A sticker will be on each bag, and complete lawn making instructions with each shipment. It takes 1 pound of seed for every 200 sq. ft. or a space 20x10 ft.

Price: 5 lbs., \$4.95; 10 lbs., \$9.80; 20 lbs., \$18.00; 100 lbs., \$85.00. NO DISCOUNTS.

FREE—1 Lawn Mower Sharpener Free with Every 10 Lbs. of Lawn Grass Seed

HARDY MANCHU APRICOTS

Will even grow as far north as the Dakotas. Original Manchu strain. Bears annually. Trees will often start bearing at 3 years. Fruit is a beautiful orange color. Freestone. Skin is smooth and fuzzless. Sweet as sugar. Not necessary to peel them. Self pollenizing.

KEEP YOUR LAWN MOWER SHARP

Sharpen your own lawn mower—a few strokes with the Berghman Lawn Mower Sharpener and blades cut like new! Adjustable—fits all mowers. Genuine alundum stone, sturdy steel construction. A handy tool. **Only \$1.95. No Discount.**

One sharpener free with every 10 lbs. of grass seed.

HARDY AMERICAN BLACK WALNUT

Makes a fine shade tree, and also valuable in the production of nutritious nuts. Very hardy anywhere, and will grow most any place or in any soil, wet or dry. Often grown for timber. Black Walnut lumber, as you know, is very valuable. Plant a grove now for your children or grandchildren, and enjoy the nuts while the trees are growing more valuable each year.

				\$0.75

ORANGE QUINCE

We list this variety of Quince as we consider it to be about the best. Fruits are almost as round as an orange, and run large in size.

Trees commence to bear young and produce large crops of fruit annually. Excellent flavored. We have only the one size trees to offer, which are 3 years old and very well branched. Ready to bear. **Price:**

Three-year-old trees, \$3.00 each. Less Discounts.

GIANT FILBERT NUTS

We offer the **BARCELONA** variety. Produces the largest, sweet meated nuts of them all. Heavy producer, and will grow anywhere, either high or low ground, but prefer lower land. Makes a beautiful ornamental bush, and in this way may be useful in more than one way. Would make a good screen to hide some unsightly spot. We offer plants 3-4 ft. tall, transplanted, and have already borne in the nursery row. **Price: 3-4 ft. tall, each \$2.75; \$5.00 for 2; 5 for \$9.50. No Discount. Supply Limited.**

PEARS

BOSC HOLIDAY PEAR

The long-necked Pear which is sold on the fancy fruit stands at a handsome profit. Has sweet very firm white flesh. Firm skin makes it a wonderful keeper. There is no finer flavored fruit in the Pear family. An excellent pollinizer. **Prices right below.**

SECKEL (Sugar Pear)

This is the summer Pear that ripens in July. Smaller in size than Bartlett. Often called the **Sugar Pear**. Sweet as honey and mild and juicy. Lemon-yellow color, with white flesh. Fine for making pickled Pears. Just the right size. Trees grow thrifty and start bearing quite young. Enormous yielders. **Prices right below.**

Chinese CHESTNUT

CASTANEA MOLLISSIMA. This wonderful new strain of **Chinese Chestnuts** is very hardy, having stood 22 degrees below zero. Blight resistant. Prolific bearers. Start bearing young, often the third year. Trees grow about the size and shape of an Apple tree. Fine flavored sweet nuts, much better than the American Chestnut. Also makes a fine shade tree in any lawn. We offer fine 2- to 3-ft. trees in transplants with fine root system. **Each \$2.50; \$4.50 for 2. Less Discounts.**

BARTLETT PEAR

The Bartlett is the most widely known Pear of them all. It ripens about the first of September. Large, fine texture and flavor. The ideal canning Pear. Yellow, with red blush. Flesh is snow-white and juicy. Bartlett sets the standard. **Prices to right.**

Bosc

CLAPP'S FAVORITE

Large uniform size, with beautiful green skin deeply blushed carmine-red. Crisp, white, juicy, sweet flesh. Hardy, thrifty and bountiful producer. Summer variety. **Prices below.**

RED GIANT

**MOST BEAUTIFUL PLUM IN
THE WORLD**

Clusters of 7 to 12 mammoth beauties on the end of each branch! Fruit often measures $2\frac{1}{2}$ to 3 inches long. Roundish oblong in shape. Ripening evenly, Red Giant Plums attain a deep, glowing maroon-red color, thickly over-spread with pink bloom. No other Plum like it! Flesh is greenish yellow, very firm, fine and sweet. Wonderful shipper and canner. Not easily bruised in handling. **Prices to right.**

PLUMS

STANLEY PRUNE PLUM

Large blue Prune type Plum. Sweetest of all Plums. Flesh is yellow as butter, and the pit falls out when broken open. Starts to bear young and regularly each year. Needs no other variety to pollinize. Ripens early September. Wonderful shipper and keeper. Eat them fresh, can them, or freeze them, and you will have the best. Supply of Stanley Prune trees limited this year. Order early. **Prices at right.**

GREEN GAGE

Large greenish yellow in color, and sweet as honey. Flesh is yellow and very juicy. Truly a dessert Plum. Also very fine for plum butter, canning or freezing. Trees bear young and annually. A basket of tree-ripened Green Gage throw off a sweet perfume that is produced by this variety only. Deserves to be in every back yard or garden. **Prices below.**

NEW FALL BLOOMING IRIS

This is really something new in Iris. The Fall Blooming Iris we list are rather dwarf in growing habit. Never grow over 24 inches tall. Bloom in the spring with the others, and start again in September and continue till frost. Double duty Iris. Hardy, fast growers, and very prolific. We have reduced our prices this year. Have a large stock, so here goes.

September Skies

Black Magic

BLACK MAGIC

Color is dark blue-black. See color photo at right. Blooms in spring, and again in the early fall to winter. Just a mass of color. We like these double duty Iris much better than the common kinds that bloom only for a short time in July.

1 Hugo Koster. 2-3 ft.
1 Mme. Lemoine. 2-3 ft.

Worth \$6.50.
FOR ONLY

\$4.50

NO DISCOUNT

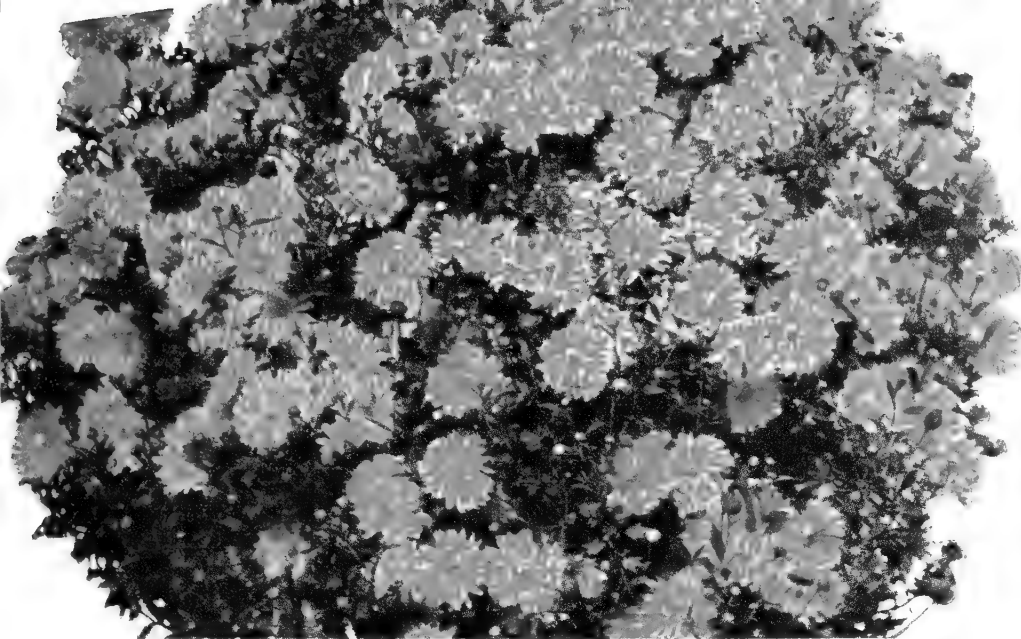

Hugo Koster

CHARLES JOLY. Double purple-red. This is one of the best double dark reds. Large blooms that are held up well above the foliage. Bush is a very good grower. Grows upright. Dark green foliage. Hardy Hybrids. Very sweet scented. **Prices:** 2-3 ft. strong plants, well branched, well rooted, each \$2.00. **NO DISCOUNT.**

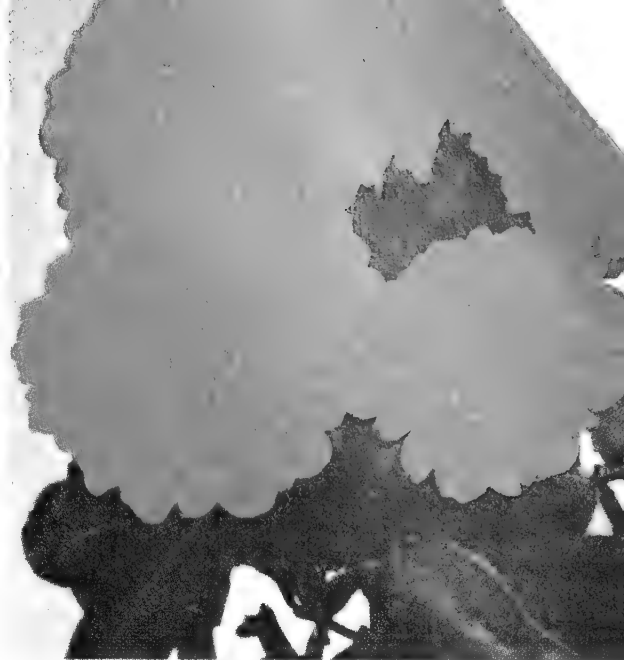

HUGO KOSTER. Bluish lilac. This is a very beautiful single blue French Hybrid Lilac. The single flowers are packed closely on the bush, and flowers are held well above the dark green foliage. Sweet scented, strong grower. **Price:** Strong 2-3 ft. well-branched plants, well rooted, each \$2.00. **NO DISCOUNT.**

MME. LEMOINE. This is by far the best double white. Not cream color, but pure white. Free bloomer, and the sweetest scented of them all. The florets are like little double Roses, all gathered to make those extra large panicles. What a sight. Dark green foliage. **Price:** 2-3 ft. well-branched plants, well rooted, each \$2.50. **NO DISCOUNT.**

Mme. Lemoine

A Single Red Cushion Mum Plant With Hundreds of Blooms Open

Bronze Cushion

CUSHION MUMS

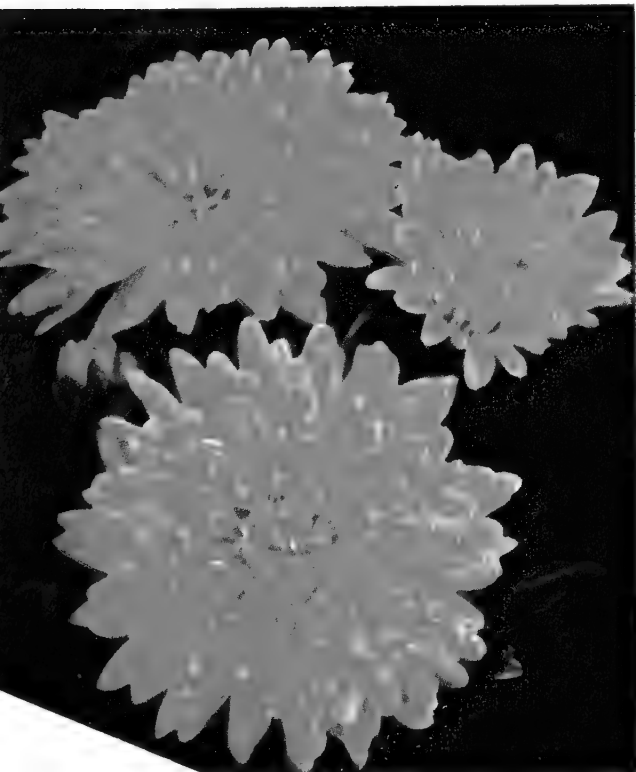

RED CUSHION

Here is the Santa Claus of them all, with its fiery red color that blends in so well with the others. We show a single plant of the RED CUSHION 5 months after planted. 500 blooms on this plant and more coming. If you have facilities, plant some of these Mums in old pots or cans, and sell them for \$2.00 each in October, when flowers are scarce. **Each 50c; 5 for \$2.00. Less Discounts.**

PINK CUSHION

Here is an old favorite, since it was the first one to be originated in Cushion Mums. Grows a huge plant just like the Red Cushion, and we show you a portion of a plant in bloom. Now just imagine 500 to 1000 of these on a single plant, and you have PINK CUSHION in its glory during September and October. **Price: Each 50c; 5 for \$2.00. Less Discounts.**

Yellow Cushion

WHITE CUSHION

No collection of Cushion Mums would be complete without a white one. It's so dainty and fine featured. A faint tinge of lemon-yellow will show near the center, which makes it more beautiful than ever. Grows to huge size just like the others in a single summer, so where could you find a bigger half dollar's worth. **Price: Each 50c; 5 for \$2.00. Less Discounts.**

BRONZE CUSHION

This Mum grows exactly like the Yellow Cushion. Hundreds of blooms open at one time, and blooms over a 3-months' period, and takes a heavy frost to stop it. We show you a few flowers, since we do not have space to show you the whole plant. Starts to bloom about a week later than yellow Cushion. This is one of the most beautiful ones of the Cushion Mums. Fine for cut flowers, since it's such a fine fall color. **Price: 50c each; 5 for \$2.00. Less Discounts.**

YELLOW CUSHION

Everyone loves a yellow Mum. It's a good bright fall color, and does not fade out. Blooms are large and full, hundreds of them in bloom at a time, and when they are out, it is impossible to see any leaves. **Price: Each 50c; 5 for \$2.00. Less Discount.**

CAROLINE VANDENBERG PHLOX

This is the blue Phlox that is so hard to beat. Free bloomer. Hardy. Grows 18 to 18 in. tall, and just covered with blooms. Lasts over a long season. Require little care other than keep the weeds out, and enjoy them year after year. We are offering large 2-year-old, field-grown plants. Well rooted. **Each 35c; 3 for \$1.00; 10 for \$2.75. Less Discounts.**

GIANT CHINESE LANTERN PLANTS

These are the New Gigantica strain. Extra large bright orange-red lanterns clustered all along the tall stems. Cut them before too hard frost, and they make a beautiful winter bouquet. Grow them for your local florist. After they are started, they will grow like weeds. **Price: Each 40c; 3 for \$1.10. Less Discounts.**

AQUILEGIA

Mrs. Scott Elliott's Long-Spurred Hybrids

A favorite for garden and bouquets. Each plant forms large clumps with dozens of flower stems in solid and two-toned combinations of great beauty in a wide range of pastel colors, of very easy culture. **Field-grown, blooming-age plants, 40c each; 3 for \$1.10; 10 for \$2.75. Less Discounts.**

MAGNOLIA SOULANGEANA

Large, Lily-like flowers of dark purplish red. This is the most popular of the hardy Magnolias and is one of the first trees to bloom. The delightfully fragrant flowers appear before the leaves.

Trees grow 12 to 15 feet. Attractive rich waxy green foliage. Likes acid soil. **2-3 ft. trees, branched, balled in peat, each \$4.75; 2 for \$9.00. No Discounts.**

ONLY
\$4.75
EACH

Old Fashioned BLEEDING HEART

BLEEDING HEART. This is the old-fashioned Bleeding Heart.

This lovely hardy old-fashioned plant is loved by all. Lives for years and comes forth each spring, right after the snow goes off, with its long arching stems, loaded with dainty heart-shaped flower pendants. Rosy red, pale yellow centers. All stems do not appear at once. Will bloom over a 6-weeks period. Plants are very hardy, and can be divided every 3 years. Plants go dormant in June in time to plant annuals like Zinnias or Marigolds. 3- to 4-1/2 inch division plants. **Field-grown. Each 75c; 3 for \$2.00. No Discounts.**

Aquilegia

HARDY FALL PERENNIAL ASTER

When most all other flowers are gone, along comes the Hardy Aster to put color and charm in your garden. Golden, centered, and flowers 1 1/2 in. across in 4 different colors. Plants grow 3 to 4 ft. tall, and hundreds of branches. Plant is completely covered when in full bloom.

PURPLE LAGOON. Is shown in the center bush, and also just above in the close-up of the flower. One of the best. **Price: Each 45c; \$1.20 for 3. Less Discount.**

CLIMAX. This is the real blue one. Grows just like Purple Lagoon, and has flowers just as large and pretty. **Each 45c; \$1.20 for 3. Less Discount.**

HARRINGTON PINK. The picture to the right tells the story. Growing habits are like Purple Lagoon, and grows about the same in height. **Price: Each 45c; \$1.20 for 3. Less Discount.**

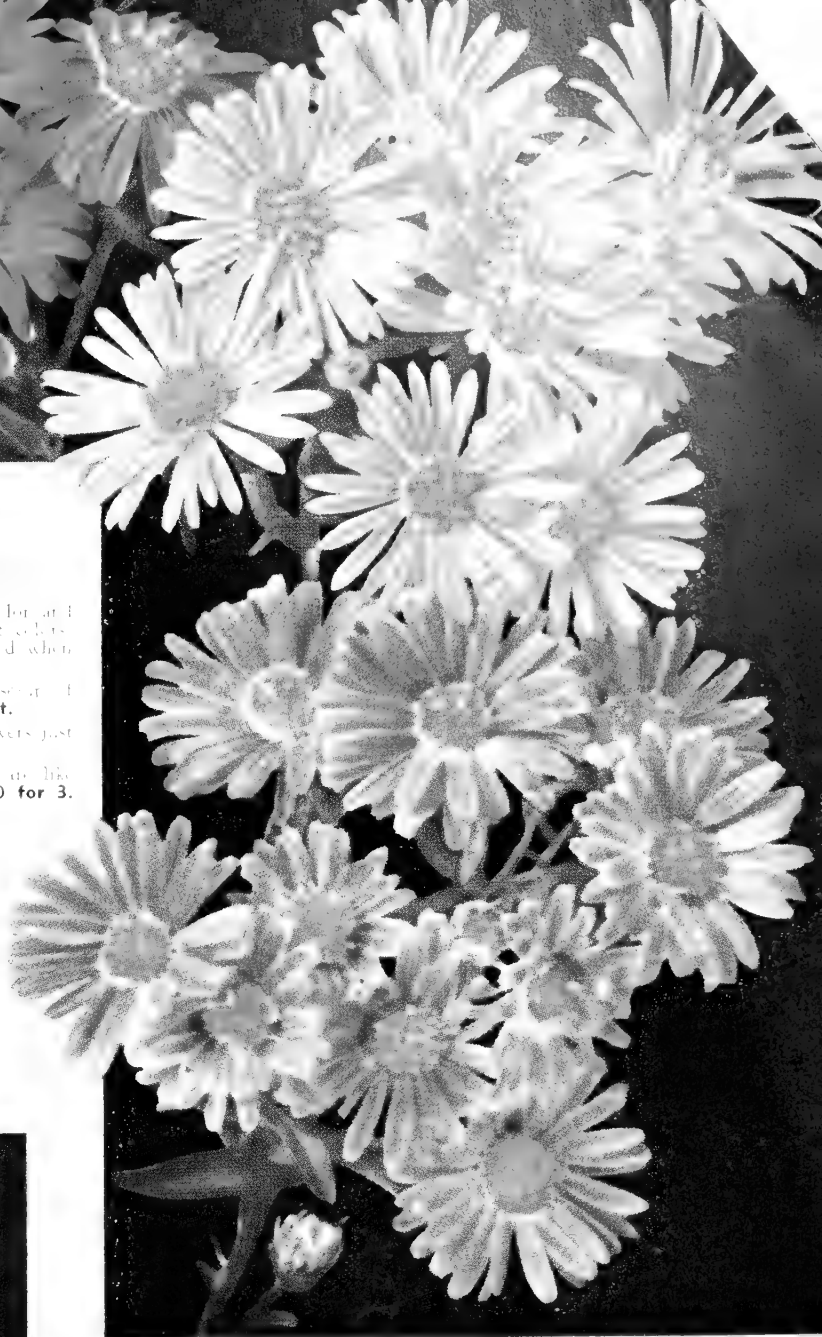

BEECHWOOD RED. What a beauty this one is. See picture above. Seems to be the most double of them all. Strong tall grower, and a mass of red bloom in September. **Each 45c; \$1.20 for 3. Less Discount.**

TIGRESS PHLOX. This is the prettiest of all the reds. Real "Fire Engine" red. Grows 18 inches tall, and one mass of bloom when in full bloom. Lasts nearly 2 months. We offer 2-year-old, field-grown, well-rooted plants. **Each 35c; 3 for \$1.00; 10 for \$2.75. Less Discount.**

Hardy Aster, Purple Lagoon

Tigress
Phlox

CLUMP BIRCH (European)

This is the white bark Birch, with three stems to each tree, giving naturalistic effect often seen growing wild. Makes a beautiful tree for the lawn. **Prices: 5- to 6-ft. trees, 3 or more stems, \$3.00. Less Discounts.**

CUTLEAF BIRCH (Weeping)

The queen of all Birches is this unusually graceful tree with weeping branches. Excellent for lawn planting. Bark is white, and peels as the wood ages. Picture below. **Prices: 5- to 6-ft. trees, each \$3.00. Less Discounts.**

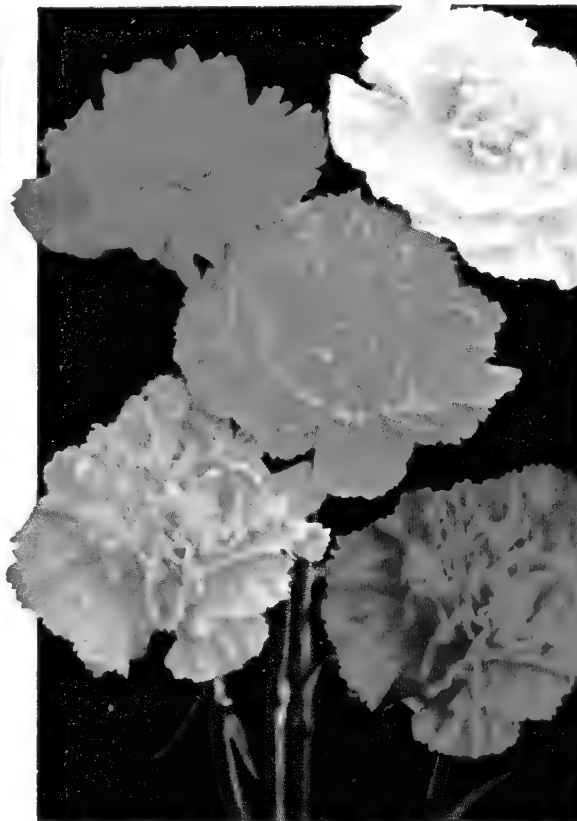

CHINESE ELM

One of the most rapid growing trees. Very durable and hardy. Slender, tough branches. Compact habit of growth with small, attractive leaves. Highly recommended for street planting. Grows anywhere, and is one of the best for dry climates. Picture at left. **Prices: 6- to 8-ft. trees, each \$1.50; 2 for \$2.75; 10 for \$12.00. Less Discounts.**

CARNATIONS Five Colors

All double. Big 1½- to 2-inch flowers with double and triple rows of petals, all fancy fringed. Spicy lingering fragrance. Lovely, grass-like, blue foliage. Blooms all summer. Fine cut flowers. Ideal for borders. Five colors: Yellow, Scarlet, Pink, Dark Maroon, Light Red. **Prices: 1 of each for \$1.75; 2 collections for \$3.00. Less Discounts.**

ROSE PRINCESS

This is a double ENGLISH Mum. Salmon-rose base flushed with gold. Strong grower, and prolific. Long blooming season. One of the best and prettiest of all English Mums. **Prices: Strong plants, each 50c; 3 for \$1.45; 10 for \$4.00. Less Discounts. Write for prices on larger lots.**

Pacific Hybrid Delphinium

HOPA FLOWERING CRAB

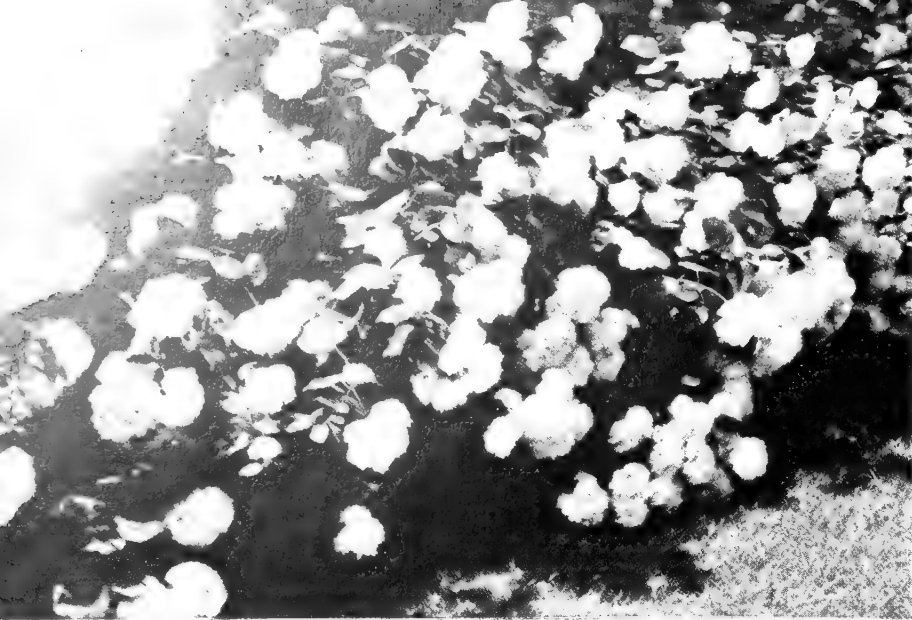

We feel that this is one of the most beautiful of all Flowering Crabs. From an ornamental standpoint these **Hopa Crabs** are well worth the price we ask for them, without the beautiful, small, reddish fleshed fruits that are fine for making jelly. Also a great attraction for the birds. Blooms early in the spring when color is so much needed in your yard. The tree will be completely covered with large, single, deep rose-colored flowers that will continue long on the tree. The buds as well as the foliage, when young, are a reddish purple. **Prices:** 2-year-old, 4 to 5 ft. trees, each \$2.00; 2 for \$3.75. Less Discount.

MIRACLE (Patented)

"HOWARD'S MIRACLE" PLUM IS IN A CLASS ALL BY ITSELF. THE FLAVOR IS SOMETHING OUT OF THIS WORLD.

Its beautiful 2 to 3 inch in diameter fruits, with thin skin and extra heavy meaty flesh, make it the last word in an eating Plum. (Notice the small pit in photo.) Ripens in July and August. Colorful leaves make it a fine ornamental tree in your yard. Trees grow medium size, often bear second year. We offer only large, **SUPER SIZE** trees. **Prices:** Each \$3.50; 2 for \$6.00. **NO DISCOUNT.**

HYDRANGEA A. G.

(Hills of Snow). This is the snowball type Hydrangea. Large blooms in June and last all summer. Will grow in the shade as well as sunlight. **Prices:** Large, 18- to 24-inch plants ready to bloom, each 85c; 2 for \$1.60. **Less Discounts.**

GREEN HEDGE BARBERRY

Barberry Thunbergi makes an ideal low growing, bushy hedge for front lawns, and along short driveways. Also useful for groups of three or five in corners. Green leaves turn gold and scarlet in fall. Red berries remain through winter. Set bushes 18 inches apart. (Rust-free type.) **Prices:** Well rooted, well branched, strong, 18- to 24-inch plants, each 40c; 10 for \$3.50; 25 for \$7.50. **Less Discounts.**

RED BARBERRY HEDGE

Same as green Barberry except that the foliage is bright red. Stays red all summer and followed by red berries in the fall. Plant 18 inches apart. Fine to plant near or around evergreens to discourage dogs. **Prices:** 15- to 18-inch, strong plants, each, 60c; 3 for \$1.75; 10 for \$5.00. **Less Discounts.**

SNOWBALL BUSH

Large, white, ball flowers, bloom early in spring. Lovely 3-lobed leaves turn shades of bronze and purple in fall. Desirable for lawn specimens and in corner plantings. Grows 6 to 8 feet at maturity. **Prices:** 2-yr., blooming age bushes, 18 to 24 inches, each 70c; 2 for \$1.35; 3 for \$1.85.

REDBUD

One of the handsomest of the low growing, flat-topped trees. Attains a height of about 15 feet at maturity. Along the numerous, wide spreading branches, rosy lavender blooms appear before the tree leafs out in spring. Flowers are so thick the tree appears as a small pink cloud. Due to the extreme hardness of the wood, the tree is usually very late leafing out. **Prices:** 2- to 3-ft. trees, ready to bloom, each \$1.25; 2 for \$2.25. **Less Discounts.**

EVERBLOOMING CLIMBING ROSES

PAUL'S SCARLET CLIMBER

Paul's Scarlet is Not Everblooming

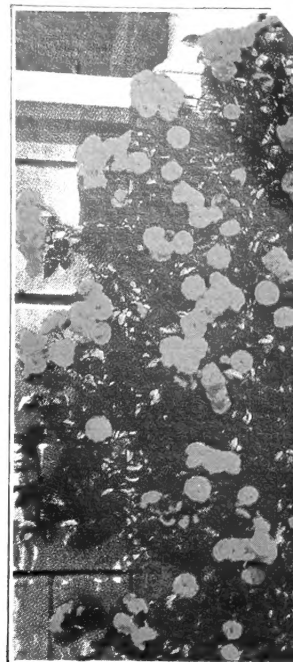

The "Reddest Rose That Grows," and the most popular of all climbers. Large, semidouble blooms in bold clusters hold their vivid scarlet color until the petals fall. Very fine for trellises and arches, or can be kept tipped back to bush form. Prices: 2-year-old, large plants, ready to bloom, each \$1.00; 3 for \$2.85; 10 for \$7.50. Less Discounts.

WHITE AMERICAN BEAUTY

Everblooming Hybrid Tea Climbing Rose. What a beauty this is too. Blooms all summer and fall. Very fragrant. Large, pure white blooms. Long pointed buds, opening to a beautiful form. Strong, 2-year-old plants. Will bloom this year. Prices: Each \$1.00; 3 for \$2.85; 10 for \$7.50. Less Discounts.

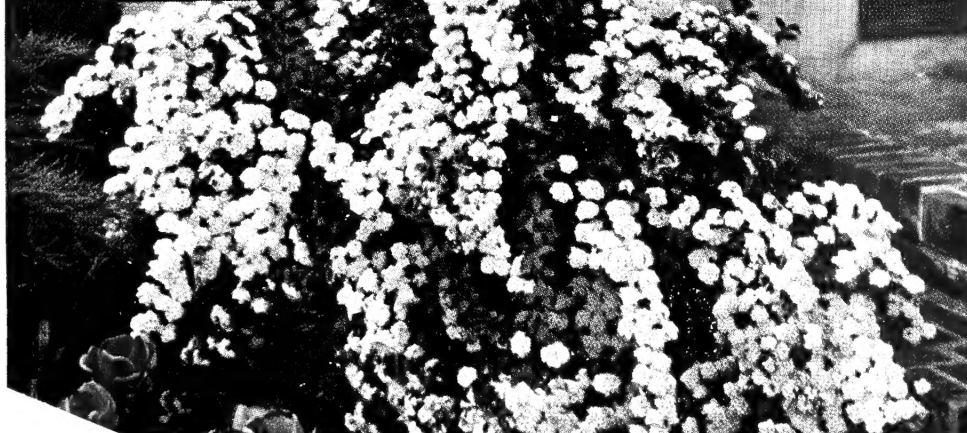

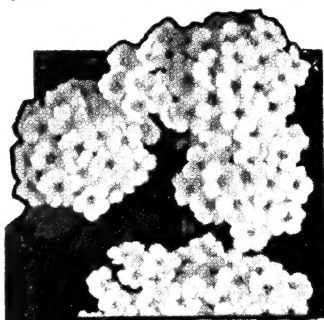

LUXEMBOURG

This is the best yellow, everblooming Hybrid Tea Climber. Strong grower. Fragrant. Excellent for cut flowers, on account of long stems. Strong, 2-year plants. Will bloom this year. Prices: Each \$1.00; 3 for \$2.85; 10 for \$7.50. Less Discounts.

SPIREA VAN HOUTTEI

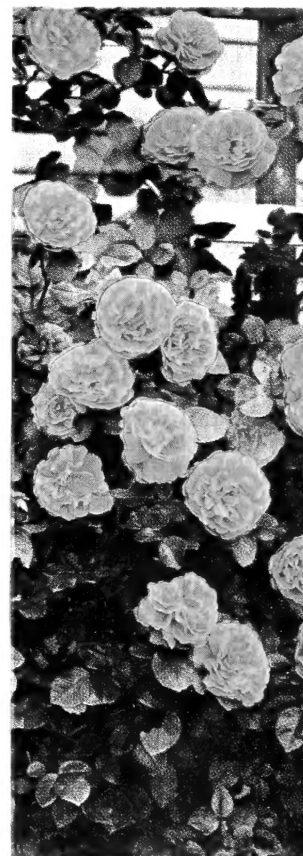

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. Early in the spring the leafless branches will be covered with tiny snow-white blooms drooping gracefully to the ground. Often called Bridal Wreath. We offer strong, field-grown plants in 18-24 inch size. Best size to plant. Will bloom this year.

Prices: 3-year-old, 18 to 24 inch, each 35c; 3 for \$1.00; 6 for \$1.80; 10 for \$2.80; 25 for \$6.25. Less Discounts.

BLUE HYDRANGEA

A rare plant of exquisite beauty, which will produce a fine crop of glorious blue flowers measuring 6 to 10 inches across. A few old rusty nails placed in the hole as you plant will assure them to bloom blue and stay blue. Or a teaspoonful of aluminum sulphate will do the trick also. Prices: 2-yr.-old, field-grown plants, each \$2.00. Less Discounts.

Luxembourg

Hydrangea P. G.

Forsythia

Persian Lilac

PERSIAN LILAC A dwarf variety with slender, arching branches, tipped with blue panicles of purple flowers. A more profuse bloomer than the common, and does not sprout so from the roots. Desirable for grouping with other shrubs. Makes a beautiful hedge when planted 2 feet apart and trimmed to desired height. **Prices:** Strong, 2 to 3 ft. plants, each 75c; 2 for \$1.45; 10 for \$6.75. Less Discounts.

HYDRANGEA P. G.

Flowers are extra large, white at first, turning to a pretty pinkish purple, and later on in the fall to a perfect bronze. Fine winter bouquet. Blooms July to October. Bloom this year. **Price:** 18 to 24 in., strong plants, each 75c; 2 for \$1.45. Less Discounts.

FORSYTHIA

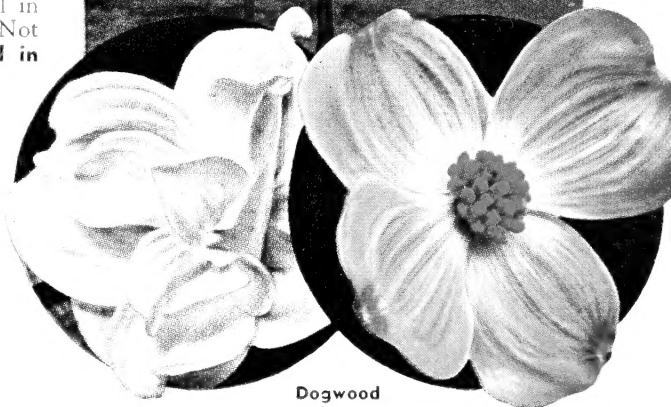

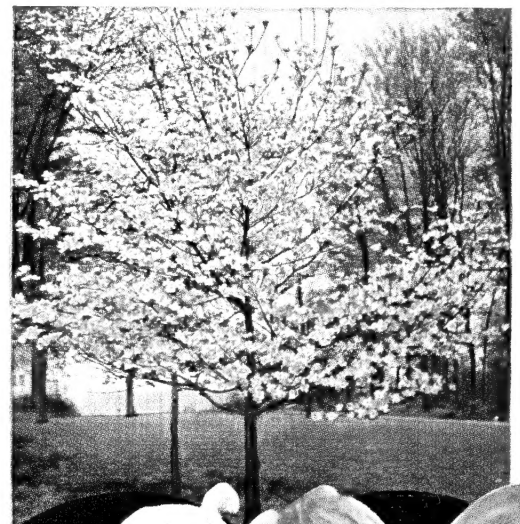

(Golden Bell). Earliest of all shrubs to bloom in the spring. Always covered with yellow bells before the leaves appear. Often in bloom during a late spring snowstorm. Bloom this year. **Prices:** 18 to 24 in. plants, each 50c; 3 for \$1.45. Less Discounts.

WHITE DOGWOOD

Cornus Florida Plena. Beautiful, large, snow-white flowers early in the spring. Grows well in shade or open sunlight. Dry or wet soil. Not fussy at all. **Price:** 2 to 3 ft. trees (balled in peat), each \$3.50. Less Discounts.

RED DOGWOOD

Cornus Florida Rubra. Lovely red flowered Dogwood, that blooms so early in the spring, on gracefully shaped trees. Will grow in shade, in dry or wet soil. **Price:** 2 to 3 ft. trees (balled in peat), each \$3.50. Less Discounts.

Dogwood

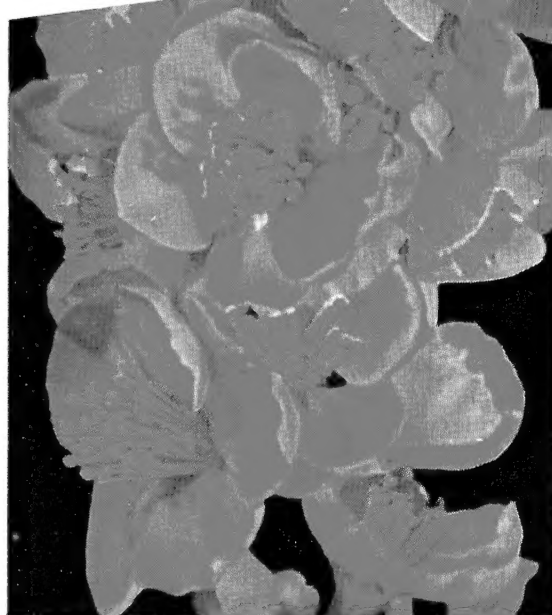

DOLGO CRAB The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young. **Prices:** 4 to 5 ft. strong branched trees, each \$1.25; 2 for \$2.25. Less Discounts. Extra heavy, 3-yr., 5 to 6 ft. trees, each \$2.00; 2 for \$3.50. Less Discounts.

SINGLE SCARLET FLOWERING QUINCE

Cydonia Japonica Rubra

Lots of bright scarlet-red flowers with golden stamens, charmingly arranged all along stems in early spring. Foliage is green tinged maroon and very interesting. A medium height shrub. Also makes a hardy, dense hedge. Small, fragrant Quinces make delicious jelly. Rich in pectin. **Strong 18-24 in. plants: Each 55c; 3 for \$1.50. Less Discounts.**

DOUBLE SCARLET FLOWERING QUINCE

(*Cydonia japonica*)

CRIMSON BEAUTY. This is a special variety, developed and introduced in Oregon. It has an upright bush form of growth with large double, deep scarlet blossoms and golden stamens. Own roots form cuttings. Very hardy. **Strong 18-24 in. plants: Each \$1.25; 2 for \$2.25. Less Discounts.**

MOCK ORANGE, Virginal

This is the new, double white Mock Orange that is so fragrant that will spray a room with perfume when used as a cut flower. No better shrub to dress up the yard. Hardy. Strong grower. Blooms in May and lasts two weeks. **Strong 18-24-in. shrubs: Each \$1.00; 2 for \$1.90; 6 for \$10.00. Less Discounts.**

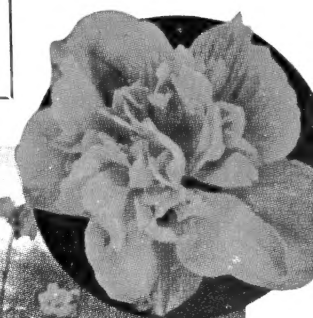

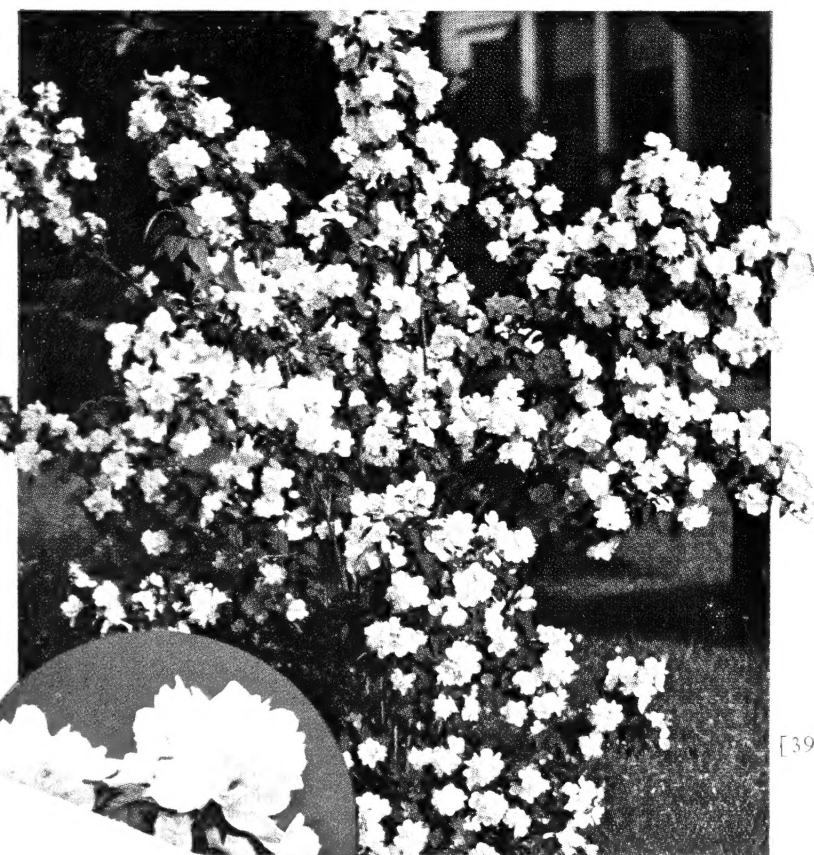

BECHTEL'S DOUBLE FLOWERING CRAB

15 feet. A fine, small flowering tree which, when in bloom, presents the appearance of being covered with delicate pink Roses, scenting the atmosphere with a perfume surpassing the fragrance of the Tea Roses. The cut blossoms have often been taken for Roses. The ideal lawn tree for a small yard. **Price: 2-3 ft. well branched, each \$1.75. 3-4 ft. extra heavy branched, each \$2.50. Less Discounts.**

DOUBLE RED ALTHEA

Blooms in August when other flowers are so scarce. See picture below. A 4-year-old Red Althea in full bloom. If you are looking for bright color in your landscape, here is the answer. Bright red, and as double as a Rose. May be used for a hedge or tall growing background. We offer 2-3 ft., strong plants. **Price: Each 75c; 3 for \$2.10; 10 for \$6.00. Less Discounts.**
